

What Makes Us Different?

- Advanced supplementation that both complements a diet and acts as a catalyst in getting you to your goal weight much faster.
- A step by step process to insure great results as well as an exit strategy to get you to your goal and KEEP YOU THERE.
- Our program builds a lifestyle around good, healthy eating habits. 80% of your battle comes from proper nutrition. We give you the tools you need.
- NO Surgery
- NO Prescription Drugs or Harmful Hormones
- NO Pre-Packaged Foods
- NO Equipment to Purchase

An **Effective & Healthy**
Weight Loss System

VitaminMed

An Effective & Healthy Weight Loss System

According to the CDC (Centers for Disease Control and Prevention) obesity is a serious concern because it is associated with poorer mental health outcomes, reduced quality of life, and the leading cause of death in the U.S. and worldwide, including diabetes, heart disease, stroke, and some types of cancer.

The good news is that no matter what your weight loss goal is, even a modest weight loss, such as 5 to 10 percent of your total body weight, is likely to produce health benefits, such as improvements in blood pressure, blood cholesterol, and blood sugars.

An important point to note with our system is that when you have dropped, for example, 16lbs., you have probably lost 14 lbs. of abnormal fat. Whereas with other diets, when you lose 16 lbs. you could be losing 8 lbs. of lean body mass, 4 lbs. of good fat reserves and 4 lbs. of abnormal fat.

By following the specific program, you will lose weight safely and rapidly from the areas that contain stored fat, and you will not only lose pounds, but more importantly inches.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease. Weight-loss results may vary. Always consult your physician before making any dietary changes or starting any nutrition, weight or exercise program. Discontinue use if allergic reaction occurs.

Appetite Curb™

Appetite Curb™ contains key amino acids to support the biosynthesis of neurotransmitters involved in appetite control, carbohydrate or fat cravings, and mood. Chromium is present to support healthy glucose metabolism and support food intake regulation.

5-Hydroxytryptophan (“5-HTP”) is a naturally-occurring amino acid precursor to serotonin. Numerous studies, including those randomized, double-blind, and placebo-controlled, confirmed the safety and efficacy of 5-HTP in reducing appetite and food intake in obese healthy and non-insulin-dependent diabetic individuals.

Super Aloe™

Super Aloe™ addresses an issue of universal importance: gastrointestinal (GI) health. GI regularity and function is vital to physiological balance and overall well-being. How well the body digests, assimilates, and eliminates metabolic fuel and metabolic waste determines health at the cellular level. Toxins that enter the body must be detoxified and their metabolites must exit the body. Gastrointestinal elimination plays a major role in detoxification by expelling the remnants of toxic molecules. If these harmful remnants are not eliminated, they can recirculate throughout the body.

Cape Aloe has a long history of use in South Africa and continues to be closely studied for its valuable attributes, specifically how it supports GI regularity. The herb is ideally used in the short term to support the elimination of toxins.

B-12 Spray

Vitamin B12 is a water-soluble vitamin. It is required for proper red blood cell formation, neurological function, and DNA synthesis. Vitamin B 12 functions as a cofactor for the enzyme methionine synthase which causes the conversion of homocysteine to methionine. Methionine is required for the formation of S-adenosylmethionine (SAME), a universal methyl donor for almost 100 different substrates, including DNA, RNA, hormones, neurotransmitters, proteins, and lipids. Deficiency of vitamin B12 may occur as a result of an inability to absorb B12 from food. It can also occur in individuals with dietary patterns that exclude animal or fortified foods.

Also, our formula contains vitamin B6 which is needed for more than 100 enzymes involved in protein metabolism.

Advance Plus™

Advance Plus™ combines homeopathic “drainers” with homeopathic remedies that support excretory function and address symptoms of toxicity. Cleansing itself of by-products and waste that accumulate is an essential function of the body. Homeopathic drainage, specifically, is a process of detoxifying the body that involves opening the emunctories and elimination channels and discharging toxic accumulation. Emunctories are organs of elimination: liver, kidneys, lungs, stomach, intestines, pancreas, skin, nose, genitals. Toxic accumulation can occur from external sources, such as pesticides, insecticides, and herbicides, and from internal sources, such as stress and inadequate nutrition, which lead to undesirable changes in metabolic function.
